Mechanical & Electrical

PiLON's Mechanical & Electrical division is run by experts qualified in their field with many years of experience.

David Lavis
Mechanical & Electrical
Manager

David Lavis has good man management skills and a high level of knowledge in all aspects of the electrical industry.

David has over 22 years experience in the electrical field, working on social housing contracts and project works.

David is backed up by supervisors and by specialist administrative support.

Working alongside refurbishment and building experts, we're now able to provide a fully integrated service, meaning efficiency and cost savings for our clients.

Our Approach

- Complete site management
- Technical support
- Full integration of trades
- Fitting with work schedules
- Sensitive approach towards in situ residents
- Stringent health and safety procedures with regular inspection and reporting

"I've been extremely impressed with the service provided by PiLON's M&E division. On time, approachable, efficient, and a good end product giving a single point of contact for all work streams"

Ady Fisher
Senior Contract Manager
Apollo Group
